FOR IMMEDIATE RELEASE

Sedgwick County EMS/Davis Moore will Hold an Event on Heat Safety this Saturday

(Sedgwick County, Kansas) – It's hot out there! And it's even hotter in your enclosed car.

Sedgwick County EMS will conduct a vehicle heat safety demonstration at Davis Moore Chevrolet West, 8200 W. Kellogg, on Saturday, June 29th, from noon to 3 p.m. This demonstration will show how quickly the interior of a vehicle heats up during extreme summer temperatures and how this poses a great health risk, especially to children and older adults.

"We hear about these tragic situations occurring in other communities and fortunately in Sedgwick County we have not seen any deaths from children being locked inside of cars," said Sedgwick County Commission Chairman Ben Sciortino. "But it's always a good reminder how quickly this can occur and how to look out for our youngest citizens," Sciortino said.

For more information or to schedule a speaker, contact Sedgwick County Communications at 660-9370.
